

Damage Heavy In Tuesday Nite Peanut Drying Plant Blaze

A spectacular Tuesday night blaze in a huge sheetiron building housing one battery of peanut drying equipment at Gold Kist Peanut Growers, resulted in heavy damage.

John T. Carpenter, Fire Marshal and Assistant Fire Chief, said he received the fire call to the former Durham Peanut Company, at 9:45 o'clock. Firemen battled the stubborn blaze until after midnight. A charged firehose was left at the scene for use in controlling the smoldering piles of peanuts and building wreckage the remainder of the night.

In an interview with The Chief, a Gold Kist official said Thursday, the fire damage had been surveyed, but other than to describe the loss as "in the thousands of dollars", no figure was released.

The fire resulted in damage to no other sector of the sprawling Gold Kist operations, than the one drying battery. The concern still has one drying battery in operation.

Electric Power Shut Off

Due to the fire at Gold Kist, electric power in certain areas of Comanche was off for about 20 minutes. Said Don Lavender, local manager for Texas Power & Light Company, "For the safety and protection of Gold Kist and our Fire Department personnel, Texas Power & Light Company has a switch which will take the peanut concern off the electric line, and it was during the period this safety precaution was being put into effect, that the electric power was off."

Plans For Rebuilding

The Gold Kist spokesman said plans are for immediate replacement and enlargement of drying facilities to get underway. However, the work cannot be completed during the current peanut marketing season. The concern will continue drying operations in the one battery which was not in any manner damaged in the Tuesday night fire.

HAVE YOU DONE YOUR PART?

What's wrong with the once generous, kind, thoughtful people of Comanche. The Greater Comanche United Fund which is now having it's annual drive is falling far below the approved budget of \$7,000. To date only \$3600 has been turned in to drive chairman Don Lacy.

Is this an indication that with the changing times, we no longer want the United Fund? If we as citizens of Comanche want and need this truly good and fine charity drive of seven combined deserving participating organizations, we surely must expect to give and support these worthy projects.

Is your conscience clear? Do you feel that you have done your fair share? Next week will be the final week of the drive. If you wish to give additional or if you have not been contacted, please send or bring your donation to Don Lacy, Drive Chairman for the Greater Comanche United Fund.

It is humiliating to feel that we have let down the needy and the youth of Comanche by not doing our part. Have you done your part. If not, won't you do more than your share TODAY by supporting and giving to this annual drive of the United Fund.

A lot of changes has been

made in the space of an ordinary

life time and many mysteries

have been explained, but some

have not.

Nobody yet has visited the moon

and "talked" with the "Man on

the Moon." My mother used to

tell me he was put there for burn-

ing brush on Sunday.

Someone has said "Of the mak-

ing of books, there is no end."

This is still true today. Some of

these books are good and costly;

others are cheap and sometimes

filthy.

One of these publications, en-

titled "Friends", is being distrib-

uted by General Motors Corpora-

tion, and locally by Mr. and Mrs.

Euell Arthur of Arthur Chevrol-

et & Oldsmobile, Inc. It tells all

about Washington, our National

Capital.

The other book, "The Ford

Times", is being distributed loca-

lly by Ira and Bill Clemons of

Clemons Motor Company.

Perhaps, the other motor com-

panies have gotten out similar

magazines, but we have not seen

them yet.

We are going to devote most

of the space allotted to this de-

partment to paragraphs lifted

from "Ford Times" in whole or

in part, without using quotation

marks:

Frank X. Tolbert, a feature

writer for The Dallas Morning

News, who in his early days liv-

ed in Comanche, and who prob-

ably thinks that Comanche is

still a "First Monday" town, had

this to say in The Ford Times:

Canton, Texas, 60 miles east

of Dallas and the county seat of

Van Zandt County, is perhaps the

only town of 1,500 in the nation

which requires three dog catch-

ers—especially following "First

Monday." In rural Texas the first

Monday in each month is tradi-

tionally "swap day." Farmers and

ranchers come to the nearest

town and devote the day to bar-

ter. Although first Monday has

disappeared in many towns, in

Canton, Texas, it is still a healthy

attraction, luring 3,000 to 5,000

visitors on that date.

Today the emphasis is on the

trading of hunting dogs and the

day is sometimes called "Dog

Monday" in Canton. The area

where swapping goes on is called

"The Jokey Grounds." Traveling

preachers often harangue the

crowds; tin pan repair men, key

ring makers and patent medicine

salesmen compete for attention

with the traders. But the biggest

deal today is on bound dogs.

Weatherford, Texas, population

9,759, the county seat of Parker

County and only 35 miles down

the highway to Fort Worth, is

probably the biggest town in

Texas that still maintains a trade

days as big as those of the old

time days, and it in addition,

draws a lot of women as well

as men, who trade and display

their hand-made articles of cloth-

ing, quilts, cakes, etc.

The bluebonnet, official State

flower of Texas, has a delight-

ful and most appropriate way of

reaching its full glory on or about

April 21. This is San Jacinto Day,

the day when Texas in 1836 won

its independence from Mexico at

the Battle of San Jacinto.

At that season of the year "The

Battle of Flowers" is held annu-

ally at San Antonio and is one

of the most colorful annual events

of the year and always attracts

thousands of people from all ov-

er the State and from many oth-

er different parts of the world.

Two Comanche people who near-

ly always attend the Battle of

Flowers, are Mr. and Mrs. N. N.

Durham, one of whose greatest

pleasures is seeing and raising

pretty flowers and shrubs. Their

yard is nearly always a show

place in the summer. Mr. and

Mrs. Durham have visited many

of the beauty spots of the world,

but say that the Battle of Flow-

ers is hard to beat for natural

and artificial beauty.

The delicate and beautiful flow-

er-named "bluebonnet" by the

white man because of its resemb-

lance of the sunbonnets worn by

the pioneer women of Texas, was

often called "Buffalo Clover" by

the early drivers and the Indians.

Today the bluebonnet is plant-

ed and maintained along the Tex-

as roads and highways by the

Texas Highway Department.

The bluebonnet also provides a

suitable entry into this issue of

the "Ford Times", whose main

purpose is to acquaint out-of-

state travelers as well as our

own citizens of this great state,

with the varied possibilities of

Texas.

Governor John Connally, a na-

tive of Wilson County, near Flores-

ville, in The Ford Times, extends

a welcome to all people of all

nations to visit Texas.

Although Texas declared its in-

dependence from Mexico in 1836

and was governed by men elected

as President of the Republic of

Texas from 1836 until it was ad-

mitted to the Union as a State

in 1845, Texas did not have a

native son as its chief executive,

either as president or as govern-

or, until James Stephen Hogg

of Rusk was elected governor in

1891. Hogg served two terms.

After Hogg had served out his

term, we again had a number of

out-of-State natives as governors,

most of them being Ex-Confeder-

ate soldiers, the last of these be-

ing S. W. T. Lanham of Weather-

ford who served from 1904 to

1908. Since that date, we believe

all of our governors have been

native Texans with the exception

of W. Lee O'Daniel.

Governor Connally says Texas

has been described as being a

"State of mind" and there is cer-

tainly some truth in this state-

ment, but it should not detract

from the very tangible evidence

of a physical Texas, a land of

such dimensions, distances, and

diversities that it often defies ade-

quate descriptions.

INTERNATIONAL STUDENTS COMING TO STAG CREEK SUPPER—Pictured on step of the Agricultural Building at Tarleton State College, Stephenville, is the group of international students who will participate in Stag Creek's International Thanksgiving Program Saturday night, November 21. All are agricultural students under the leadership of Joe Autry, Professor and Head of Tarleton's Agricultural Department. Left to right, first row: Alvaro Jaime, freshman from Mexico; Eloy Kelso, sophomore from Panama; Manuel Flores, sophomore from Mexico; and Gustavo A. Cucalon, freshman from Colombia. Left to right, second row: Francisco Omana, junior from Venezuela; Enrique Garces, senior from Colombia; Jose R. Weddle, freshman from Honduras; and Francisco Perez, sophomore from Panama. Left to right, third row: Alberto Kelso, junior from Panama, and Rafael Weddle, junior from Honduras.

We also are aware of the fact that these assets until recently, were completely unknown to many people. In 1933, however, a record of 11,700 visitors did travel to Texas, most of them by car. They were offered as attractions far more than the stereotype image of desert, cowboys, and oil millionaires, etc.

While the size of Texas is well known, many of the travelers were surprised at its greatness when they discovered that size had enabled Texas to offer extremely varied attractions to suit most every taste.

We like to think of Texas as a great open country where you can travel miles without seeing even a village, and such is the case, but of the nation's 15 larg-

est cities, three of them are in Texas: Houston, population 938,219; Dallas 679,684, and San Antonio 587,718.

Other cities in Texas with over 100,000 population in 1960 are Austin 186,545; Amarillo 137,969; Beaumont 119,691; Corpus Christi 167,690; El Paso 276,687; Fort Worth 356,268; Lubbock 128,691; and Wichita Falls 101,724.

Only Alaska of all the 50 States, has a greater volume of water than does Texas.

Also our 600-mile coastline would fix a firm image of a seacoast State of sparkling beaches and deep sea fishing.

Yet Texas is a wooded country. Put our 15 million acres of woodland in a smaller state, and Texas would be described as a heavy forest region, highly rewarding to those who enjoy miles of fragrant piney woods. These forests would cover virtually all of New England.

In many parts of Texas the rich fertile land is as level as a house floor, yet an average size State with the mountains of Texas would be regarded as a rugged

mountainous country.

The southern reaches of the Rocky Mountains extend into the vast area west of the Pecos River and includes 90 peaks over a mile high.

The Guadalupe, Davis and Chisos ranges offer spectacular scenery of wooded mountains and

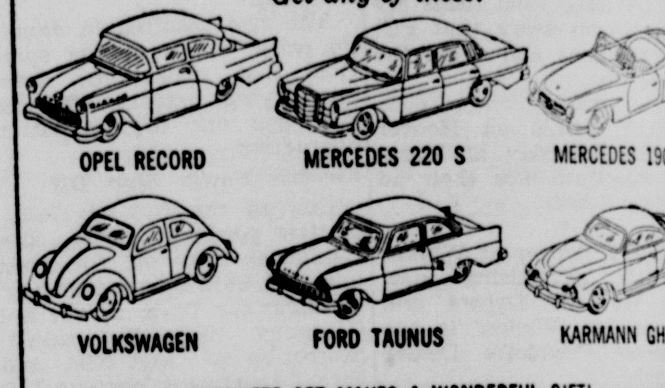

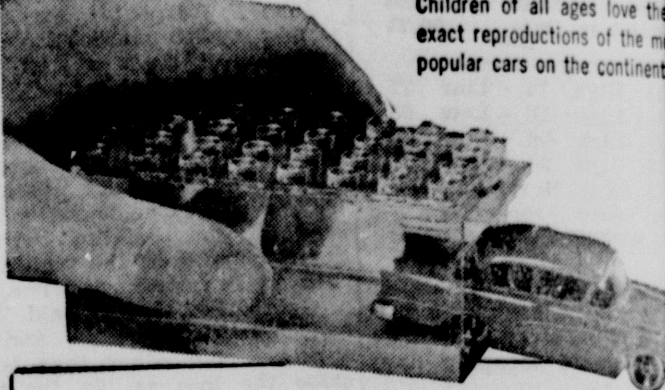

deep canyons including Big Bend National Park, we personally not yet had the privilege of exploring.

Yet Texas is also a sub-country. If an average size had our Lower Rio Grande its visitors would think of land as one of it as the (Continued on Next to Last)

4-H GOLD STAR WINNERS—Shown are the 1964 Comanche County Gold Star winners, Jane Ann Robertson of Comanche 4-H and Walter McCullough of Newburg 4-H and their parents. County Judge D. F. Caraway, center, presented the Gold Star awards at the annual 4-H Achievement Program held Saturday night, Nov. 7, in the District Courtroom. Judge Caraway invited the parents of the award winners, Mr. and Mrs. John Robertson and Mr. and Mrs. Gayle McCullough, to pin on the coveted Gold Star—the highest honor that can be awarded in 4-H Club work. Jane and Walter are holding the Texas-size International Relationship plaques—a rotating award to the Gold Star Boy and Girl furnished by M. C. Channarralars of India, formerly Visiting County Agent in Comanche County. The International Relationship award was presented by Ernesto Arias V., on right, Visiting County Agent from Costa Rica.

Memorial Books, A Thoughtful Gift

Have you heard about the Memorial Book service at your Comanche Public Library? If you are interested come down any Wednesday afternoon or Saturday morning and the volunteer librarian on duty will help you. Many of the fine memorial books have been given for people who were reared in Comanche, but had lived their adult lives away from here. Most of these people have had a strong attachment to Comanche and their families are pleased with the books that were donated in their names.

Mrs. Georgia (Burton) Herrick—What People Wore—Mrs. Harro T. Higginbotham.
Family Living in the Bible—Mr. and Mrs. G. P. Tate.
Mrs. Rufus (Sullivan) Higgs—Symbolic Meaning—Mr. and Mrs. Porter Franks.
Adventures in the Holy Land—Mr. and Mrs. W. C. Chilton.
Cradles of Imminence—Mrs. Clara Slack, Mrs. Gracie Robertson.
America the Beautiful—Mr. and Mrs. G. P. Tate.
Roots in the Rock—Mrs. Stella Montgomery, Mrs. Bess Satterfield.

Graham Woman Wins Grid Contest

The \$500 prize in the Comanche Chief's Football Contest was won this week by Mrs. G. A. Reid of Graham. Mrs. Reid's entry probably was the closest to being a perfect of any winner this fall. She not only picked the winner in all ten games, she only missed the score in the Comanche-Cisco game by three points. She missed the Comanche score by one point and the Cisco score by two points. A check has been mailed to Mrs. Reid, who has entered each weekly contest this fall.

Vinnie Beam—Mrs. F. L. Little and Miss Berta Goodson.
To be selected—Mr. and Mrs. Joe Waring.
Mrs. Coralie Melnecke—Pictorial Encyclopedia of the Animal Kingdom—Mr. and Mrs. Tom Coleman.
Singers and Storytellers—Mr. and Mrs. Herbert Williams.
Ozona Story—Mr. and Mrs. G. P. Dudley.
Mark Callaway—Men to Match My Mountains, and Land They Fought For—E. P. Woodruff and E. P. Woodruff, Jr.
To Number Our Days—Mr. and Mrs. Tom Coleman.

Also guessing the correct winner in all ten games was Douglas Bowden, 109 E. Martin, Comanche. Douglas, a member of the Comanche High School B football team, missed the Comanche-Cisco score by 20 points to come in second. A year's subscription to The Chief will be sent to Douglas starting next week.

Bobby Reeves, 609 E. Mill, Comanche, another Indian gridder, was one of the four entries who missed only one game. Bobby receives a year's subscription to The Chief for coming closest in picking the Comanche-Cisco game score.

The other three entries missing only one game included Mrs. M. E. Elliott of Brownwood, Carl Walker of Sidney, and Brantley C. Smith, Comanche.

Honorable mention for missing only two games goes to Jerry Norris, TWC student, Fort Worth; G. A. Reid, Graham; Alice Stokes, Brownwood; J. M. McNutt, Valley Mills; Becky Wommack, Andrews; Danny Farley, Sherman Sides, and Dr. Terrell Sharp, all of De Leon. From Comanche missing two games were Ruby Hall, Mary Ruth Ross, Mary Edna Walkowiak, Wayne Hill, Donnie Hicks, Billy J. Hicks, John Wilson, Jimmy Whitworth, and Mrs. I. M. Davis.

terminated by the one who has the nearest correct guess on the score between Baylor and Rice. This contest has never been won, and The Chief is pulling for a winner this year!

Hicks Reported Improving—Charlie Hicks, Comanche man, who recently underwent major surgery at St. Paul's hospital in Dallas, is reported improving and expects to be soon.

Booths were opened and everyone had a wonderful time. The booths included many throwing contests, cake walk, food booth and others.

Queen Diane Adecock and King Tommy McGinnis, seniors, along with Princess Charla Reese and Prince Scotty Hayes, 2nd grade, reigned over the carnival.

The Queen Court included representatives from each of the other classes.

The Queen and King were entertained with a program presented by the singing groups of music teacher Mrs. Golden Reese.

The High School Choral Group, The Mondermaiers, sang as the Queen and Her Court ascended to her throne.

Proceeds from the carnival and the queen contests go to the Student Activity Fund for use in the Athletic Fund, Banquets and other phases of Student Activity. This totaled \$1420.

The students of Gustine state that they would like to thank

everyone who had a part in or attended the Gustine Carnival or help in any way in the Queen's Contest. "We appreciate greatly your helping us raise this much money for the betterment of our school," say the Gustine students.

We sometimes borrow from neighbors, too

... and they borrow from us.

One of the means by which Texas Power & Light Company keeps your electric service dependable and economical is a system of interconnections with the facilities of other Texas power companies.

While TP&L maintains ample power for its customers, emergency situations such as storms, floods and other disasters sometimes cause damage which brings about a need for assistance. In such instances, TP&L, through the interconnection of its transmission lines with those of other Texas power companies, is able to borrow power, just as they

are able to borrow from TP&L during similar emergencies.

In order to assure its customers of ample power at all times, TP&L is constantly planning and building ahead. For example, the Company is now constructing a 500,000-kilowatt addition to its Stryker Creek Plant. Large units such as this provide greater economy because they cost less per kilowatt to build and operate.

Thus, through interconnections... and in other ways... TP&L is constantly ready to meet your present electric power needs and preparing to meet your needs in the years ahead.

ENGAGEMENT ANNOUNCED—The engagement of Miss Carolyn Colborn to Lynn Holden was announced at a tea in Dublin on November 12th. Parents of the bridal couple are Mr. and Mrs. Everett E. old ranches are functioning as strongly as ever, furnishing top grade beef to the tables of America today.

The cattleman's heritage is also preserved in the great ranches of the Hill Country around San Antonio and Austin where the Hill Country LBJ Ranch is drawing national and international publicity.

You may have traveled the East where it took you to the

big cities of America and you may have gone abroad and seen the wonders across the seas, but unless you have gotten in your car and covered the whole State of Texas to get the feel of this vast everchanging land and hit the road as true Texans do, you are missing something that you will never experience elsewhere in the whole world, says Margaret Cousins, author of The Ford Times.

Any Texan will tell you that the only way to see Texas is by car. Unless you have the stamina to travel some 700 miles from the Sabine River to El Paso, or approximately 800 miles from Brownsville to Amarillo, you simply cannot see what you ought to see, to truly appreciate Texas.

Even then you can only obtain a glancing impression of the 267,339 square miles which occupy one-twelfth of the continental area of the United States; nor would you come in contact with more than a small portion of the 200,000 miles of public roads over which the State of Texas says "grace".

The Comanche Indians dropped their final football game of the season Friday night to the Cisco

Loboes 26-6. The loss makes the Indians' season record 4-6 and district record 0-4.

The game marked the final high school grid career of eleven members of the Indian squad—James Alcorn, Billy Williams, Tom Plumlee, Skipper Shumpes, Jimmy Daniels, Sid Caney, Bill Gossett, Calvin Salois, Richard Adams, Gray Jolink, and Tommy Willis.

The game was a better than the score indicated, and the Indians were in the game until the third quarter.

Comanche received the kickoff

and marched for a couple of quick first downs before a pass interception halted the drive on the 35 yard line.

Cisco took the ball and 4 plays later, Larry Hargrave, Lobo sophomore halfback, broke 53 yards off tackle for a touchdown.

The kick for extra point was good and Cisco led 7-0 early in the first period.

Hargrave again scored for the Loboes midway in the second period from the two yard line. The try for extra point was no good and Cisco led 13-0.

The Indians came close to scoring in the final minutes of the second period—driving to the 6 yard line before being held on downs.

In the third quarter, Comanche recovered a Cisco fumble on the 31 yard line. Denny Scott gained 11 yards, then Gray Jolink passed 16 yards to Bill Gossett for the score. The kick for extra point was no good, and the Indians trailed 13-6.

In the fourth quarter, the Loboes got a big break when the ball was centered over Bill Gossett's head when he was in deep punt formation. That gave Cisco possession of the ball on the Indian two yard line. Two plays later, Hargrave scored his third touchdown of the night.

The try for extra point was good and Cisco led 20-6.

The Loboes scored again late in the game on a 36 yard pass, and that was the ball game.

Halfback Denny Scott and Fullback Danny McKinzie did a good job for the Indians carrying the ball for the Indians.

On defense, George Salois, Roy Graham, Skipper Shumpes, Tom Willis played good ball.

Service Relinquishes Frigidaire Dealership

C. L. Huett and Gyaale Pirkle, owners of Service Drug Store, announced this week that they have relinquished the Frigidaire dealership which their drug store had for the past 30 years.

Mr. Huett stated that J. D. Walker of Walker Appliances is the new Frigidaire Dealer for Comanche.

Mr. Huett started selling Frigidaire appliances in 1934, only 2 years after he opened the Service Drug Store, and during the past 30 years became one of the top Frigidaire dealers in the state.

Mr. Huett's son-in-law, Gyaale Pirkle, was taken in as a full partner in the store in 1967.

The growing drug business necessitated the relinquishing of the appliance dealership. "We just had to have additional room," said the firm owners.

Plans are now underway to install some new fixtures in the store. A Zale's Franchise jewelry section has been added. A larger and more complete display of Hallmark cards will also soon be added.

"We wish the Walkers the best in their new endeavor," say Mr. Huett and Pirkle, adding that they also thank the many loyal friends and customers they have had during the years.

Mr. and Mrs. Hill left Comanche November 20th for their first visit with their first grandchild. Mrs. Hill will remain in Houston for several days.
